## Using JSETS

---

Look for a registration in JSETS if:

- The alert message states “See JSETS” anywhere in the registration section.
- Any registration information is in doubt.
- If the beacon is a Combat Survivor Evader Locator (CSEL).

*NOTE: JSETS beacons are added to the USMCC in real time.*

## Using JSETS (Cont'd)

---

- Some beacons identified as being part of the US military in the RGDB may not be registered in the JSETS database. If so, inform the owner that they need to register with JSETS.
- When filling out the IHDB for a JSETS beacon, mark the *Registration Information Usage and Accuracy* sections as Unverified.

## IBRD Access

---

The IBRD is designed for countries that do not have their own 24/7 beacon registration database. Access the IBRD at:

[www.406registration.com](http://www.406registration.com)

To determine a country's registration point of contact, see:

[www.cospas-sarsat.int/en/contacts-pro/contacts-details-all](http://www.cospas-sarsat.int/en/contacts-pro/contacts-details-all)

## IBRD Account Access Problems

---

For any IBRD account access issues (e.g., forgotten password or being locked out of the system), call the USMCC Controller to report the situation and receive assistance:
